

# Resume

Hello, I'm José Simón Ovando Arriagada and I'm a **Frontend Developer**.

Since I was little I was interested in the Internet and web pages, it was the time of the "webmaster". I never learned to program, but I played a lot with Dreamweaver and some outdated programs like Image Composer and FrontPage, making pages for my favorite video games of the time.

In 2022 I studied Coderhouse's Frontend React Development career, being in the Top 10 of best students in the 3 courses that comprise it. Currently I continue studying in the Oracle Next Education program.

## Skills

- HTML
- Sass
- JavaScript
- Photoshop
- CSS
- Bootstrap
- React
- Figma
